

STATE AND IDAHO NEWS

Latest Items of Interest From Utah and Gem State

AGED PERSONS SANE MUST QUIT ASYLUM

POCATELLO, Ida., May 2.—Dr. W. F. Almond, medical adviser for the state department of public welfare, after an investigation of the state mental hospital, declared "several inmates of the Blackfoot insane asylum are no more insane than you or I." He is backed up in his decision by Drs. J. H. Ray and Edward N. Roberts of Pocatello, Dr. Charles R. Scott and Dr. F. W. Mitchell of Blackfoot.

The investigation was made at the request of the department of public welfare, working toward cleaning out the hospital of people who are not long there and are not properly committed to the insane hospital. According to the examining physicians, five persons of twenty examined in one group were not insane in any way, but were suffering from senility, physical disability in their old age, or suffering from senile decay.

There are women between the ages of 60 and 90 who are not in the least insane and their commitment papers do not claim they are. Some of the women have been evidently sent to the asylum to get them out of the way, according to the physicians who have made the investigations. Re-examinations of the inmates and the hospital rid of all sane patients.

REPORT FAVORABLY ON LAND EXCHANGE

WASHINGTON, May 2.—The senate public lands committee has reported favorably on the house bill introduced by Representative Addison T. Smith permitting the state of Idaho to exchange its school sections within forest reserves for an equal value of unreserved public timber land.

The bill which has already passed the house, stipulates that the lands to be taken by the state in exchange shall be from tracts from townships 29 and 40 north, range 3 east, and townships 26, 27, 28 and 29 north, range 5 east, and 38 north 6 east, which area was once embraced in fraudulent timber entries and reverted to the government after trial in the courts. The area is surrounded by large timber holdings of lumber companies and, through the exchange, it is thought the state can readily sell this land, or the timber on it, at a good profit.

The committee also reported Senator Borah's bill granting the city of Boise the use of a part of the Boise barracks military reservation for park purposes.

WOMEN FINED FOR FISHING IN IDAHO

MALAD, Idaho, May 2.—Jail sentences are being imposed upon fishermen who fail to procure licenses. William Kunter and Wren Peterson of Ririe, were arrested April 16 and were sentenced to serve 15 days in the county jail, but their sentences were later commuted when they purchased new licenses.

Mrs. Lloyd Wentenkamp and Mrs. G. L. Newman were arrested April 23 at Clear Lake for fishing without a license. They were each fined \$25. William Cunningham was also arrested at the same place on the same charge. He was fined \$25.

IDAHO DENTISTS OPEN CONVENTION

POCATELLO, Idaho, May 2.—More than 100 dentists are present at a roll call yesterday at the state convention of dentists. Dr. Leo J. Shepherd of Salt Lake, was the principal speaker. Dr. E. Arden Hunt, of Salt Lake, also spoke.

The meeting will continue for two more days. The committee of local dentists on reception is composed of A. M. Jacobson, R. J. Cruse and G. H. Sherburne.

MAY MAKE TRIP DOWN COLORADO

SALT LAKE, May 2.—Tentative plans for the holding of the next meeting of the Colorado river commission at Bright Angel point, on the north rim of Grand Canyon National park, after trip down the Colorado river as far as the proposed dam site at Lee's ferry, have progressed at least so far as to demonstrate the feasibility of the undertaking, in the opinion of B. E. Caldwell, state engineer and Utah member of the commission.

The details are being worked out by E. C. La Rue, hydraulic engineer, water resources branch, United States geological survey. A communication received by Mr. Caldwell yesterday presents at least a most inviting prospect for not only the Colorado river commissioners, but also any others who may be able to arrange a similar trip.

The project grew out of a remark by Governor Mabey that he would like very much to make the trip through the canyon and to get first-hand acquaintance with the river. Mr. Caldwell took the matter up with Mr. La Rue, who declared that the trip would be perfectly feasible, and suggested that the entire Colorado river commission go along.

URGES SUPPORT OF UNIVERSITY R. O. T. C.

SALT LAKE, May 2.—Major General C. G. Morton, commander of the ninth army corps area of the United States, yesterday urged the support of the reserve officers' training corps movement in the University of Utah and the schools of the state. His letter says in part:

"Our new military policy provides, as you know, for a small regular army, a large national guard and the organized reserves. The annual increase for the national guard and the organized reserves must be in a great measure secured from the reserve officers' training corps graduates. The war department's plans for maintaining this source of officer personnel, in your state, would be seriously affected should the authorities of the university adopt a policy which would make the retention of a reserve officer training corps unit unsatisfactory or impossible. I understand that there is a possibility the university authorities adopting such a policy.

"Any assistance you may render in the matter will be greatly appreciated."

OPPOSITION URGED TO DUNN MEASURE

SALT LAKE, May 2.—In a letter sent by Governor Mabey yesterday to the two Utah senators in Washington, he asks that they oppose the Dunn bill, which would make material amendments to the federal highway act as recently passed and approved. He argues that the passage of such a measure would put the federal aid highway system back six years. The bill has passed the house.

Governor Mabey says in part:

"First—There will be a conflict in the definition of 'federal aid roads' leaving it indefinite whether a road shall be a rural post road or whether it shall be a 7 per cent system road.

"Second—A limitation by the mile which will prevent the construction, in the poorer states, which are dependent largely upon federal aid, of anything but a cheaper type of road, such as gravel or dirt surface grading only.

"The application of the graduated scale provision in section 5 will be the same as in the present bill and will raise the participation of public and states in the same proportion as under the present law, except that it will be based on a limitation of \$25,000 per mile and \$20,000 a mile, respectively."

ROAD HAS TWO ROAD BOARDS

Governor Takes No Action on Request of Men He Asked to Resign

SALT LAKE, May 2.—With the withdrawal of resignations by the old members of the state road commission and the appearance at the state capitol yesterday of the new commission members, Governor Mabey has found himself with two road commissions on his hands.

The adjournment of the "former" or "present" state road commission—according to the point of view—last Saturday, until the regular meeting date of Tuesday was explained by the announcement that Chairman N. C. Poulson and Commissioner George B. Cooper had written Governor Mabey to withdraw their written resignations. These, it is understood, had not been accepted in writing. The third member of the commission, Ira H. Brown, who, by reason of his absence from the capitol at the time, happens to be the only member of the road commission for whose resignation a request went forward in writing, has not yet complied.

NEW MEMBERS THERE.

The situation was canvassed at some length at a meeting yesterday in the governor's office. The matter was left as unfinished business, and any announcement was deferred until after a meeting to be held some time today if the governor can divert his attention from the Carbon county coal strike problem long enough to devote to the matter further.

During the afternoon, Preston G. Peterson of Provo, Henry W. Lunt of Cedar City and Henry H. Blood of Kayville called at the state capitol. However, the proclamation naming them formally as members of the commission had not been filed with the secretary of state, and there was nothing that the new appointees could do officially. They contented themselves with making a few calls on personal friends at the statehouse and left without action of any kind.

SUGGEST SEVER MAN.

RICHFIELD, May 2.—The Sevier county Republican central committee met yesterday afternoon to consider the action of Governor Mabey in asking for the resignation of the state road commission. After due discussion, a resolution was introduced and passed protesting against the action of the governor and asking for a reconsideration of the matter; for the retention of N. C. Poulson as chairman of the commission, and, failing in this, to ask that a Sevier county man be named to take his place. The committee also chose for a successor to George A. Christensen of Redmond, former county assessor.

NEVADA CON. WILL RESUME OPERATIONS

ELY, Nev., May 2.—Two steam shovels will start operating in the Ruth pit of the Nevada Consolidated Copper company's property this week and six ball mills with a total capacity of 3,000 tons per 24 hours have been started at the McGill mill.

The Nevada Consolidated resumed operation about the middle of March, but owing to the coal strike a suspension occurred two weeks later. The mine is now confident that it will have a sufficient tonnage of coal on hand to continue work steadily. There are plenty of men in camp to meet all demands on labor.

General Manager J. L. Lakenan, in outlining the policy of resumption, said that an ample tonnage of ore had arrived at the smelter to blow in one reverberatory this week.

Then asked concerning the number of men employed at the mine and the possibility of increasing this force, Mr. Lakenan said:

"There are at present about 250 men working in the underground and about 100 men at the surface. The McGill mill is not the intention of the company to materially increase the pay roll during the next two months, as many employees who were previously engaged in construction and upkeep work will be put on operations."

RIO GRANDE RESISTS VIADUCT PROPOSAL

SALT LAKE, May 2.—In a protest filed by the Denver & Rio Grande Western railroad, the position is taken that for the state to use its authority to compel it to establish and share in the cost of constructing a viaduct at a point where a proposed road in Davis county crosses the railroad right of way would be a violation of property without due process of law, and therefore, in violation of the federal and state constitutions.

It is contended that a crossing formerly existed at that point, but was abandoned, and that the railroad made certain payments to the county and had provided a new right of way. It is contended that the land over which the proposed overhead crossing would necessarily be built is the property of the railroad and is not subject to any right of way for the proposed road crossing.

When the former crossing was abandoned, it is contended that the railroad abandoned its right and made other changes in construction and operation, in consideration of which the county should be estopped from seeking to reopen the road at this crossing.

INTERSTATE SUGAR COMPANY IS SUED

SALT LAKE, May 2.—Suit was filed in the Third district court yesterday by the Continental & Commercial National bank of Chicago against James J. Burke, receiver of the Interstate Sugar company, and Ernest R. Woolley, seeking the recovery of \$22,971.31 alleged to be owing on trade acceptances.

Mr. Woolley is made a defendant, according to the complaint, because of an alleged agreement of answer for the debts of the Interstate Sugar company up to \$350,000.

The action is brought to recover on five acceptances issued March 11, 1921. Two of the obligations were for \$10,000, another was for \$5,000 and a fourth for \$2,800.

PUMPING STARTS LATE.

MALAD, May 2.—W. R. Putnam, vice president and general manager of the Idaho Power company, announced last night that the late spring is responsible for the utilization of power for pumping purposes on irrigation projects in southern Idaho being about three weeks later than usual.

ROAD SUPERVISOR CHOSEN.

LOGAN, May 2.—The county commissioner, Monday named William Garrett of Wellsville road supervisor for the southern district.

DEPUTIES GO TO CARBON COUNTY

Fifty Special Officers Assigned to Keep Order in Camps

SALT LAKE, May 2.—Fifty deputies recruited in Salt Lake, Utah and Davis counties were sent to Carbon county yesterday to aid in preserving order. Prior to their departure word was received that conditions in the vicinity of the coal camps were quiet and that there were no disorders.

The special train, consisting of two coaches and a baggage car, left Salt Lake shortly after midnight, the idea being to arrive in Scofield at about 5 o'clock in the morning, so that the men will be able to get in place with as little danger of friction at the start as possible.

Governor Mabey yesterday requested O. F. McShane, member of the industrial commission, who is in Carbon county, to call the deputies in at Helper, at Pelee and at Storrs, in Spring canyon.

ADJUTANT GOING

The governor announced that Lieutenant Colonel A. G. Williams, adjutant general of the state, will go to Scofield this morning in uniform.

The governor said the Carbon county commissioners had told him of the situation at Scofield. He said that the deputy sheriffs should be held back for a day or two. The chief executive officer, however, had been assured by Mr. Kneer that, in the latter's belief, the deputies would not be molested in the slightest.

Frank Hicks, justice of the peace and a deputy game warden of Carbon county, was up from Scofield yesterday. People have been told today, after having conferred with Governor Mabey and strongly protested against sending the national guard to Scofield.

CRITICISE OFFICERS

Mr. Hicks is severe in his criticism of Sam Dorritt, who started the trouble through using foolish methods in dealing with the miners and riding his horse into a crowd of men, women and children. The sheriff, he says, sent in his appeal and followed it with a second appeal to the governor for aid without even investigating the situation.

"The men down there would be peaceable and law-abiding," said Mr. Hicks, "and would give up their arms to the local authorities if the mine owners would withdraw the guards and not send any more guards down there. They have the law that the miners are just a bunch of foreigners and there are many Americans there and they are good citizens. The miners themselves refused to allow members of the I. W. W. to enter the camp."

OPPOSE GUARD

Protests against any proposal to send the military forces of the state of Utah into Carbon county in the present industrial crisis were received by Governor Mabey yesterday from division 382 of the Amalgamated Association of Street and Electric Railway Employees of America, and from M. P. Eder of Labor. The former protest, which is signed by the division by the secretary, J. J. Sullivan, contents itself with condemning the attitude of the mining companies "in their efforts to disregard the rights of the miners in order to preserve law and order in that district, when, as a matter of fact, it is not the miners, but the hirelings of the mining companies who are responsible for any lawlessness that does exist."

NO PUBLIC CEREMONIES

SCOTFIELD, May 2.—There were no public ceremonies yesterday in observance of the anniversary of the mine disaster at Scofield. The former protest, which is signed by the division by the secretary, J. J. Sullivan, contents itself with condemning the attitude of the mining companies "in their efforts to disregard the rights of the miners in order to preserve law and order in that district, when, as a matter of fact, it is not the miners, but the hirelings of the mining companies who are responsible for any lawlessness that does exist."

IDAHO SUPREME COURT IN SESSION

POCATELLO, Idaho, May 2.—The state supreme court convened here yesterday in the federal building for a special term, with the following officials in attendance:

Chief Justice Alfred Budge, Associate Justices Rice, Lee, McCarty and Clerk of the Court I. W. Hart. It was voted the convention of the court to convene in this city on September 1, but on account of the large number of cases in the Pocatello district, it was found necessary to call a special session.

No business was transacted by the court yesterday morning, on account of the inability of attorneys in the first cases on the calendar to be present. Many important cases are on the calendar.

Thirteen different religious beliefs are represented among the girls living in the Y. M. C. A. home in St. Louis.

"Gets-It" Relieves Corns in 30 Seconds

Ask Your Friends—They Know

Thousands of people have only themselves to blame for corns, blisters, poison, etc. Trimming and "treating" them with knives and razors only makes them worse. Millions of others are wise enough to use "Gets-It" and get a bottle today. E. Lawrence & Co., Mfrs. Chicago. Costs but a trifle everywhere.

Sold in Ogden by A. R. McIntire Drug Co., and Chas. E. Driver—Advertisement.

FEDERAL BUILDING AT VERNAL PLANNED

WASHINGTON, May 2.—Senator King was advised yesterday that the plans for the public building at Vernal, Utah, were now completed, and that inspectors were at work to determine if there were sufficient building material and if contractors cared to bid on the work.

The advertising of plans of the buildings for Spanish Park and Eureka has been delayed, it was said, because of the press of work on soldier hospitals, but invitations for bids on the buildings will be asked in the immediate future.

Senator King conferred with the chairman of the public building committee to ascertain if a general public building bill is to be passed this session. He was told that question had not been determined, but if such a bill is to be framed, Senator King was assured his bills for buildings at Ephraim, Nephi and Price would be considered and at least two of them would be embodied in the general bill.

THREE CONFESS MURDER, CLAIM

Landlady Lured Into Room and Strangled, Police Declare

LOS ANGELES, Calif., May 2.—Sufficient evidence was discovered Monday, according to police detectives, to justify murder complaints against three young men held in the city jail on suspicion of the murder of Mrs. Nancy M. Wheelock, 66 years old, proprietor of a rooming house, whose death by strangulation was discovered Sunday. Mrs. Wheelock's jewels, valued at \$15,000, are missing.

MEN IDENTIFIED.

Two of the men, Robert Ray, alias Valentine Rabaka, and Adam Ward, alias Adam Blaszyk, have admitted participation in the affair, but denied their intention to go beyond robbery, according to the police. The third man, John Shellat, resisted efforts to make him talk.

Evelyn Schelhouse, 22, who told newspapermen she was "Ray's girl," and that she had tried to communicate in his behalf with his wife, Mrs. Rena Ray, of 1622 Indiana street, Toledo, Ohio, was taken into custody Sunday and Ward and is held as a material witness.

Ward and Ray have been identified as having engaged apartments at Mrs. Wheelock's establishment Saturday and both have declared Shellat took possession of Mrs. Wheelock's jewels. Officers say Mrs. Wheelock was killed that night.

Detectives say Miss Schelhouse stated she was told of the alleged plot to rob Mrs. Wheelock two weeks ago and tried to dissuade the men from it. Her handkerchiefs, she was said to have declared, were used to gag Mrs. Wheelock after Ray and Ward had lured the elderly landlady to their room on the pretext of having her read the gas meter.

A towel also was placed over Mrs. Wheelock's head, it was said, and when she continued to struggle, a handkerchief was tied around her throat. After that she lay still, and they carried her back to her room, where her body was discovered Sunday night by other roomers.

Miss Schelhouse was questioned first by detectives after the discovery of the body. Her replies were unsatisfactory, they said, but she was released and officers trailed her to places where she met Ray and Ward. The three were arrested and Miss Schelhouse then told the officers where they could find Shellat.

Detectives say they found Mrs. Wheelock's bankbooks where Ray and Ward said they had thrown them. Ray's alleged confession was not taken until the declaration that he had entered the apartment while Mrs. Wheelock was being gagged and that her valuables, including diamonds, hurriedly extracted from their settings, were placed into his possession.

Ward was said to have confessed after he was shown the confession credited to Ray.

GIRL "KNOCKING ABOUT"

The police quoted Miss Schelhouse as saying she was born in Maryland, that she has "just been knocking around to see the world," and that she "picked up an acquaintance" with Ray on the street.

I came here from New York three weeks ago," she said, "I met Ward on the street and he introduced me to Ray, who took me to his sweetheart. I am a nurse, but was penniless, so went with the men. I warned them not to rob Mrs. Wheelock, but they don't think Ray did the actual killing. He's too weak. Ward must have persuaded him to go into it.

"I'm not mixed up in this deal. When I get out I'm going to hit for Yale. I'm not in love with Ray, but I do like him and I guess you might call me his girl. He has a wife in Toledo and I wrote a letter to her in his behalf, but didn't get a chance to mail it.

Ray is said to have a child as well as a wife in Toledo.

Ward is believed by the police to have been put on probation at Madison, Ohio, after conviction of grand larceny.

Mrs. Wheelock is said to have a sister, Mrs. Cynthia Donnell, at Hedrie, Ohio.

MILITARY FRAT IS FORMED AT U. A. C.

(Special Dispatch)

LOGAN, May 2.—The official inauguration of the Scabbard and Blade, a national honorary military fraternity, was held at the Utah Agricultural college Sunday.

Colonel Arthur S. Burkett, of Columbus, Ohio, presented the charter to the institution and officiated in the initiations. Out of approximately 27 western colleges that applied for charters only two were granted this year, one at the U. A. C. and one at an institution in the Dakotas.

Only commissioned R. O. T. C. officers are eligible to membership.

At the initiations held Sunday President E. G. Peterson, Major C. C. Sullivan and Captain Charles Chellis were given honorary membership in the fraternity. The following members were initiated: Clifford Stevenson, cadet major; Lavell Morris, first lieutenant; Floyd Larsen, captain; Gordon Croft, captain; John Orms, captain; W. W. Bowman, first lieutenant; Eulon Smith, first lieutenant; Robert Bjorkman, first lieutenant and adjutant; and Roland Smith, second lieutenant.

The insignia on the Scabbard and Blade fraternity pin is an American Eagle perched on two sheathed swords, denoting preparedness in time of peace.

Following the initiations Captain Charles Chellis entertained at luncheon at the Hotel Eccles for Colonel Burkett and members of the local chapter of the Scabbard and Blade.

Progress

Piggly Wiggly customers will be interested to know of the steady growth of the Piggly Wiggly way in Utah and Ogden. Yesterday, in Salt Lake City at the new Commercial Market, another Piggly Wiggly store capable of serving five thousand customers in a day was ushered into existence. May fifteenth a Piggly Wiggly store will be opened in Logan.

Perhaps of more direct interest to Ogden is the growth of your own local store. Today Piggly Wiggly has been open for three months. Piggly Wiggly business Saturday, May 29, was approximately twice as large as it was ten weeks ago. Piggly Wiggly deeply appreciates the attention and will strive to merit a continuance of growth.

PIGGLY WIGGLY All Over the World

PRESIDENT LEWIS W. SHURTLIFF DEAD

(Continued from Page One)

may 21, 1853. He held that office until he was released by death, a period of 39 years, the longest record of any state president of the church. Associated with him as his counselors were Neils C. Flygare and Charles E. Middleton. When Elder Flygare passed away he was succeeded by Bishop John Watson of the Fifth ward. Elder Middleton died a few years ago and the office was held for about three years by Alva L. Stoville who resigned and was succeeded by Bishop George E. Browning of the Second ward.

PROMINENT IN CIVIC AFFAIRS.

In civic affairs President Shurtliff was prominent holding the office of county commissioner and during the '80's was twice elected probate judge in 1910, he was appointed postmaster of Ogden, occupying the position for four years. He has ever been a close student of all the great problems that do with the development of the country and has long been an outstanding figure in the National Irrigation congress and in the Trans-Mississippi Commercial congress. He has also attended a number of other national conventions to which he was elected as a delegate.

On April 10, 1922, President Shurtliff remarried, wedding Emily M. Wright, who departed this life in 1916. He has won many sincere friends during his long life due to his kind and loving nature and devotion to service of the people.

President Shurtliff was a prominent figure at all the general conferences of the church and other notable church gatherings in Salt Lake. Due to his illness he was unable to attend the recent semi-annual conference. He celebrated his eighty-sixth birthday yesterday on July 14, last and in celebration of the quarter century of the Weber state on a short quest of honor at a short session on the spacious lawns at the Twenty-fourth street, on which he was photographed as one of the state workers.

EXPERT WITNESS APPEAR FOR CH

SALT LAKE, May 1.—In a case which tested the wisdom of the law firm of Schuller against Charles O. screen comedian, expressed opinions as to how much the witness's expert testimony was worth. The witness's expert testimony was worth the opinions expressed by the firm's expert witnesses last week. The firm seeks judgment for services rendered in the case. The defense expert witness testified yesterday in the district court, where the case heard before a jury. Verne F. and Harold M. Stephens, judges of the Third district court, and William S. Ray and Athol Rawlins, of Chaplin, asked the witness's expert testimony was worth the opinions expressed by the firm's expert witnesses last week. The firm seeks judgment for services rendered in the case. The defense expert witness testified yesterday in the district court, where the case heard before a jury. Verne F. and Harold M.
